COLLEGA

Every idea, from first spark to shipped.

Capture ideas, rank them with your team, and carry the winners straight into delivery — with the people, comments and history attached the whole way.

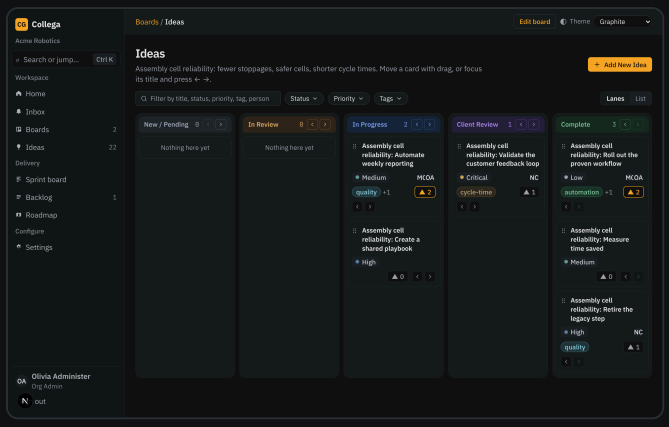

Capture

Boards, lists and a one-keystroke "new idea" so nothing stays in a chat thread.

Decide

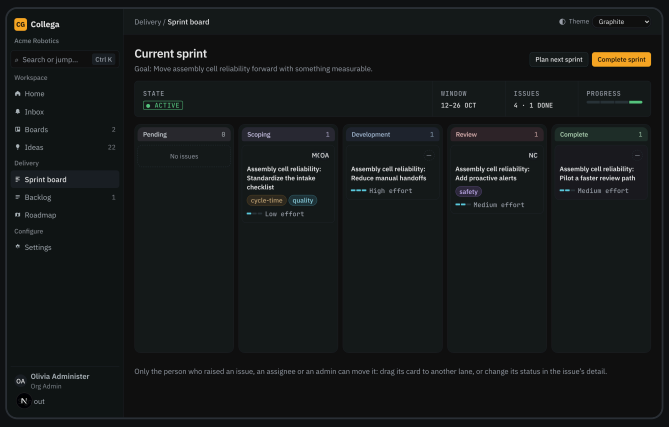

Votes, priority, tags and assignees show what the team actually wants.

Everything your team needs, in one place

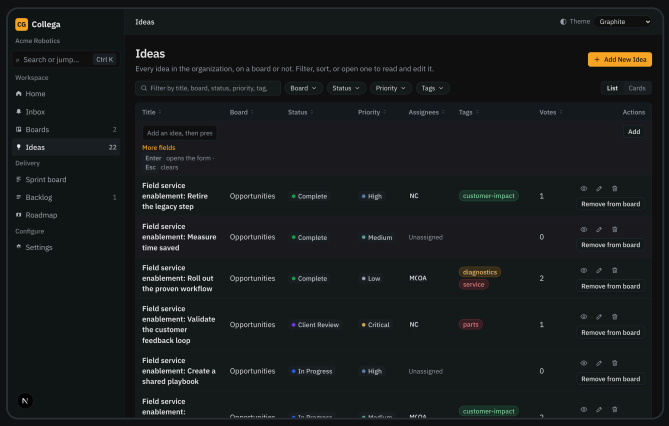

Boards

Lanes from New to Complete. Drag a card or use the keyboard to move it.

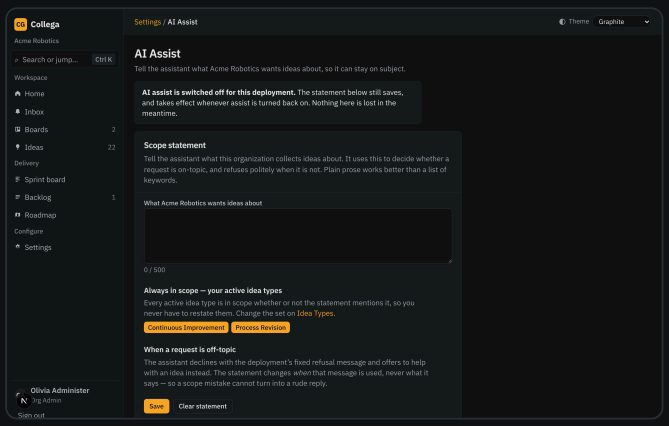

Sprint delivery

Promote an idea to an issue, size the effort and track the sprint.

Ideas list

Filter by board, status, priority and tags; list or card view.

AI-assisted authoring

Turn a rough thought into a clear, complete idea. Admins control the settings.

Made for admins

Org Admin, member and read-only roles; custom fields, field sets and idea types; user import.

Made to look right

Five themes — Graphite dark and Terrazzo light among them — remembered per browser. Press Ctrl K to jump anywhere.

See Collega on your own ideas

Book a 30-minute walkthrough, pilot with one team, scale to the organization.
